# Welcome

## Mastering the maze – Navigating the tax minefield with confidence

On behalf of The Tax Institute and the Organising Committee, I am pleased to welcome you to the Tasmanian Convention in Hobart on 17–18 October 2024.

Our theme this year, “Mastering the maze – Navigating the tax minefield with confidence”, aptly captures the intricate and often daunting landscape of taxation.

The complexity of our tax system is a well-recognised challenge in Australia which impacts everyone, making it imperative for us to stay informed and agile. For our practices and clients to succeed, we must adeptly navigate these complexities and adjust to the ongoing changes in our environment. While some changes are beyond our control, we can strategically adopt others to benefit our clients and practices.

In our annual flagship tax event this year we focus on hidden threats in the well-known provisions as well as exploring emerging trends we need to be ready for.

From a workshop on practical lesson from recent anti-avoidance cases for SMEs & family groups and a panel discussion on new tax agent reporting to classical topics of capital management and Division 7A, this year’s Convention addresses the key issues facing the tax profession in 2024 and beyond. The diverse range of sessions is designed to provoke thought and encourage robust discussions during our networking opportunities and the convention dinner, being held this year at the Aura Crowne Plaza.

I extend my gratitude to our presenters, fellow members of the Organising Committee, and the staff of The Tax Institute for their collective effort in bringing this year’s Convention to you. I look forward to seeing you there.

# Technical program

**Day 1**      Thursday, 17 October 2024

| Time              | Session  |
|-------------------|--|
| 9:00 – 9:30am     | Workshop registration  |
| 9:30am – 11:30am  | <p><b>Pre-convention workshop: SMEs &amp; General anti-avoidance rules – Practical lessons from recent cases</b></p> <p>Speaker: Gareth Redenbach, Victorian Bar</p> <p>Australia is experiencing a tsunami of Part IVA and other anti-avoidance cases. Anti-avoidance activity now arguably focuses more on SMEs and family groups than during the mid-2000s to pre-COVID period. A number of recent cases offer specific insights into how cases are likely to be won or lost at hearing, which should influence how advisors prepare for and manage anti-avoidance risks for their clients to hopefully try and prevent protracted disputes. The session will provide an overview of recent cases and practical tips on how to manage risks from wealth transfers, business sales and family group restructures (e.g. trust restructures) by reference to recent decisions (not all of which specifically involve SMEs – e.g. <i>Minerva Financial Group Pty Ltd v Commissioner of Taxation</i> [2024] FCAFC 28).</p> |
| 11:30am – 12:15pm | Convention registration and lunch  |
| 12:15 – 12:30pm   | <p><b>Welcome and President's address</b></p> <p>Speaker: Svetlana Kolyasnikova, CTA, BDO, Todd Want, CTA, President, The Tax Institute</p>  |

# Technical program

## Day 1 Thursday, 17 October 2024 continued

| Time           | Session   |
|----------------|---|
| 12:30 – 2:00pm | <p><b>Session 1: Loans versus Gifts – Parents funding children’s home purchase</b><br/>Speaker: Allan Swan, Estate Planning Equation</p> <p>These days many first home buyers rely on financial assistance from parents or grandparents to get into the real estate market. The choice of loan or gift for the funds can have unfortunate consequences, making forward planning vital.</p> <p>Planning considerations include setting up family law defences, anticipating a child’s possible insolvency, plus eligibility for main residence tax exemptions and overcoming the presumption of advancement. Other tax issues rear their head for investment properties and businesses or where means-tested pension eligibility is important. If funds provided to children are unequal, adjustment and indexation provisions are needed in the Wills of each parent.</p>   |
| 2:00 – 3:00pm  | <p><b>Session 2: Practical planning and traps in small business CGT concessions – Tips, tricks, and real-life scenarios</b><br/>Speaker: Linda Tapiolas, CTA, Cooper Grace Ward Lawyers</p> <p>This session is designed to provide you with practical tips and tricks for planning your small business CGT concessions. It will address real-life scenarios, focusing on common traps and war stories to help you navigate potential pitfalls. Delegates will gain an understanding of what’s right, what’s wrong, and how to avoid the most frequent mistakes. This session will focus on:</p> <ul style="list-style-type: none"><li>• Is the liability “related” to the CGT asset for \$6m maximum net asset value test</li><li>• Aggregated turnover: What income is derived from carrying on business and what income can be excluded?</li><li>• Payment of CGT exempt amounts: Dividend, capital distribution or non-deductible expense; and</li><li>• Extracting the proceeds of sale from unit trusts and companies tax effectively.</li></ul> |
| 3:00 – 3:30pm  | <b>Afternoon tea</b>  |
| 3:30 – 4:30pm  | <p><b>Session 3: SMSFs are they still worth it?</b><br/>Speaker: Shirley Schaefer, BDO</p> <p>With ever changing rules around superannuation, is it worth still having a SMSF?</p> <p>This session will explore some of the things that can be done in a SMSF (that you mightn’t be able to do in Industry or Retail superannuation environments) including:</p> <ul style="list-style-type: none"><li>• Contribution Strategies (including recontribution strategies)</li><li>• Private Investments (greater return but don’t forget potential increased risk)</li><li>• Property ownership (what is the best way to do this); and</li><li>• Benefit and Pension strategies.</li></ul> <p>The session will also cover the latest on the new Div 296 tax (\$3 million threshold tax).</p>   |

This session will provide valuable insights into how SBR can support businesses in navigating financial challenges.</p> |

The new rules form part of a package of recently legislated measures and result from wide-sweeping reviews of the interaction of government, government agencies, professional associations and practitioners.</p> <p>Drawing on the expertise and insights of the panellists, from a regulatory and an accounting perspective, this session will:</p> <ul style="list-style-type: none"><li>• Examine the new breach reporting rules which impose new obligations on registered tax and BAS agents</li><li>• Consider other important legislative changes that affect the regulation of practitioners</li><li>• Consider how practitioners can manage their role as guardians of the tax system while fulfilling their legal obligations to their clients and themselves</li><li>• Look at the role of the TPB and how it will administer the new rules; and</li><li>• Work through a range of issues that practitioners will face in complying with their new obligations.</li></ul> |
