Welcome

On behalf of The Tax Institute and the Organising Committee, it gives me great pleasure to invite you to attend the Financial Services Taxation Conference, Australia's leading event for financial services taxation professionals, to be held from 26–27 March 2026 at Crown Sydney.

The financial services sector continues to navigate a dynamic environment shaped by evolving regulatory frameworks, increased ATO scrutiny, ongoing international tax reforms, and the implementation of the debt deduction creation rules. At the same time, technological transformation, including the rise of AI-enabled and automated tax functions are reshaping compliance and governance standards and the future of the profession. These developments overlay a complex range of tax challenges that impact business strategy, transaction structuring, and financial performance across the industry.

This year's program has been carefully curated by the Organising Committee to address the most pressing issues facing the industry today. We are delighted to bring together some of Australia's foremost thought leaders to share their technical expertise, practical insights and policy perspectives.

Across two days, the program features a strong mix of plenary and breakout sessions, allowing you to tailor your learning experience. Topics range from technical updates and case developments to broader economic and regulatory insights, ensuring comprehensive coverage of the issues shaping financial services taxation in 2026 and beyond.

Highlights of this year's program include sessions on the debt deduction creation rules, taxation and regulation of private credit, tax and regulatory insights for IDPS and bare trust operators, international tax developments, the implications of the *PepsiCo* High Court decision, and the AI-enabled tax function of the future.

In addition to the technical program, the event provides an excellent opportunity to connect and collaborate with peers, clients and colleagues from across the financial services taxation community.

We look forward to welcoming you to Crown Sydney for what promises to be an engaging and insightful event.

Siew-Kee has over 26 years' experience providing tax advisory services to financial services, real estate, private equity and infrastructure clients and advising throughout the entire deal life cycle, including mergers and acquisitions, due diligence, tax compliance and divestments. He delivers practical and commercial expertise to clients, drawing from his previous role as the Head of Tax of an Australian listed group. Siew-Kee has been heavily involved in the tax reform design for Management Investment Trusts, CCIVs and Financial Services.

Besa Deda is the Chief Economist at William Buck. She has built a career

translating complexity into clarity. Curious by nature and driven by a passion for making economics accessible. Known for her people-first leadership and engaging communication style, Besa's strength lies in her ability to bring macroeconomic trends down to a human level; always with relevance, clarity and impact. Her career spans more than two decades in the banking and finance sector. It includes her historic appointment at St. George Bank in 2008 as the first female Chief Economist of an Australian bank. Following Westpac's merger, she was appointed Chief Economist across several brands in the Westpac Group. She's earned a reputation as a respected thought leader and trusted advisor to businesses of all sizes; from small enterprises to national institutions. Today, Besa brings that leadership and insight to William Buck, delivering context-rich analysis that helps clients make smarter, more confident decisions. She also serves as Chair of the not-for-profit organisation Australian Business Economists, where she has championed diversity, modernised operations, and expanded its reach in informing, connecting and influencing economic and policy debate in Australia. And while many know Besa for her articulate commentary, fewer realise she's a lover of obscure facts and trivia, always ready with a surprising insight to spark conversation.
