Welcome

This year's Organising Committee are excited to bring you the 2026 Trusts Intensive.

Running over two days from 4-5 June 2026, this online intensive will feature expert presenters who will help you navigate practical issues when dealing with Trusts in 2026, including:

- FTE's to Franking – The tricky terrain of Discretionary Trusts
- Lost in trust losses
- Trusts under pressure – Div 7A UPE traps, EA pitfalls & the sleeper risks
- The Trust Distribution playbook
- Intergenerational Wealth Transfers through Trusts
- Trust integrity
- Income Tax and Trusts

A special thank you to our speakers and committee for their commitment and effort in putting together this fantastic program.

We look forward to seeing you all at the upcoming event!

Technical program

Day 1 Thursday, 4 June 2026

Time *AEST	Session
10:25-10:30am	Welcome and opening address
10:30-11:30am	<p>Session 1: FTEs to Franking - The tricky terrain of Discretionary Trusts Speaker: Natalie Cameron, CTA, Elda Legal</p> <p>The ATO has continued its focus on family discretionary trusts, with a noticeably increased attention on issues such as Family Trust Elections (FTEs), family trust distribution tax, and the availability of franking credits on franked distributions that pass through a trust.</p> <p>This session explains the potential pitfalls for taxpayers associated with these issues, including:</p> <ul style="list-style-type: none">• The increasing difficulty of navigating the FTE regime when the second or third generation take over an existing family group• How taxpayers may inadvertently be distributing outside their family group• The ATO's recent activity audit activity in relation to franking credits passing through discretionary trusts; and• How tax advisors need to be approaching the end of year distributions with the above issues in mind
11:30am-12:30pm	<p>Session 2: Lost in Trust Losses - FTE jitters and the 'Schedule 2F' tripwires Speaker: Matthew McKee, FTI, Brown Wright Stein</p> <p>In light of the increased ATO focus on Family Trust Elections (FTE), trustees and their tax advisers are increasingly weighing up whether to make an FTE.</p> <p>This session steps through what that decision practically changes for Trust Losses and how to keep access to trust losses without creating new exposure elsewhere.</p> <ul style="list-style-type: none">• So an FTE is in force and why most trust loss tests fall away, but the income injection test remains the key danger area• What if no FTE is made and how do you navigate the "full suite" of trust loss tests• Distribution patterns in practice - How year-to-year distribution behaviour can impact on the ability to access trust losses in the future; and• How control and governance changes can be fatal.
12:30-1:00pm	Delegate break

Technical program

Day 1 Thursday, 4 June 2026 continued

Time *AEST	Session
1:00–2:00pm	<p>Session 3: Trusts under pressure – Div 7A UPE traps, EA pitfalls & the sleeper risks Speaker: Tracey Dunn, EY</p> <p>Division 7A risk in trust structures rarely presents as a clean “loan to a shareholder”. It’s usually sitting in the gaps between trust resolutions, UPEs, loan accounts, interposed entities and year-end “tidy ups”.</p> <p>This session focuses on the high-risk areas and a practical proofing approach you can apply each compliance season, including:</p> <ul style="list-style-type: none">• Where Div 7A can bite in a trust structure – UPEs, trustee-to-company movements, on-lending, and “who is the target entity?” through interposed entities• Subdivision EA and the distinction between UPE vs loan, and when trustee payments/loans/debt forgiveness can trigger a deemed dividend outcome• Where payments and loans are made through interposed entities and the things advisers miss when applying <i>s109T</i>• So the client wants to “refresh” their Division 7A loan, how <i>s109R</i> can cause a significant tax impact (when repayments aren’t counted the way you expect)• What trustees and their advisers need to get better at, such as recording UPE’s v loans, set-offs and reorganisations, journal entries, and other risk flags to be identified before signing off• The <i>Bendel</i> decision and what does this means for advisers and why Subdivision EA analysis becomes front-of-mind again; and• How to avoid accidental deemed dividend outcomes when “cleaning up” a balance sheet.
2:00–3:00pm	<p>Session 4: The Trust Distribution playbook – A practical case study Speaker: Mark West, CTA, West Garbutt</p> <p>A practical walk-through of the decisions and tax mechanics that sit behind “just do the trust distribution”, using a prior-year fact pattern that can get complicated by current-year activities (sale of assets, dividends received, and changed beneficiary tax profiles).</p> <p>This case study will demonstrate:</p> <ul style="list-style-type: none">• How to think about distributions and what is it we’re actually trying to distribute (and why the deed definition matters)• What are the distributions to be made? Are we talking about income or capital? The practical sequencing to consider when you’ve got ordinary income, capital gains, and franked distributions• Making beneficiaries “specifically entitled” to capital gains and franked distributions and where advisers commonly get things wrong• How <i>Division 6E</i> interacts with <i>Subdivision 115-C/207-B</i>• Capital gains streaming realities – the impact of concessions, the “rateable reduction”, and why the taxable gain outcome can differ from the economic gain you think you’re allocating• What happens where distributions are made through the year – Interim distributions, the timing of present entitlement, and what can (and can’t) be “fixed” at 30 June when the facts change late; and• Deed and beneficiary class traps – Who is eligible, deed restrictions, and “default beneficiary” consequences when the intended beneficiary can’t receive what you’re trying to allocate.

Technical program

Day 2 Friday, 5 June 2026

Time *AEST	Session
10:30-11:30am	<p>Session 5: Where the trust really becomes the determining factor of a tax outcome Speaker: Linda Tapiolas, CTA, Cooper Grace Ward</p> <p>What happens when the taxpayer's trust causes surprise? This session will take attendees through a case study considering:</p> <ul style="list-style-type: none">• Situations where a purported changes of trustee or distributions are found to be invalid• Mismatches between trust law income and taxable income• Resettlement• The streaming of capital gains and franked dividends; and• The trustee's right of indemnity in the context of making beneficiaries absolutely entitled to trust property.
11:30am-12:30pm	<p>Session 6: Intergenerational Wealth Transfers through trusts Speakers: Lisa Monaco, Birchstone Legal, Daniel Taborsky, CTA, Birchstone Legal</p> <p>Intergenerational transfers of wealth held through trusts are attracting increased scrutiny as families and advisers grapple with tax complexity, duty exposure and a growing risk of disputes. This session provides a practical overview of the key issues that arise when wealth that has been accumulated in a trust passes to the next generation, including structural tensions between family groups, technical risks associated with trust changes and the expanding cross-border dimension of succession.</p> <p>Key topics include:</p> <ul style="list-style-type: none">• Managing competing interests and the evolving "war of the trusts" dynamic• Stamp duty risks, resettlements and trust splitting strategies• Estate disputes involving trust assets and the increasing litigation overlay; and• Cross-border succession issues and practical risk areas arising under <i>s99B</i>.

Technical program

Day 2 Friday, 5 June 2026 continued

Time *AEST	Session
1:00 – 2:00pm	<p>Session 7: Trust integrity Speaker: Dr Philip Bender, CTA, Victorian Bar</p> <p>Courts continue to consider the application of tax general anti avoidance rules (GAAR) to trusts and it's apparent that a clear objectively assessed dominant purpose linked to tax avoidance needs to exist, not merely a tax benefit. Where is the line?</p> <p>This session will provide some practical examples, drawing from recent cases such as the trust distributions in Minerva, the debt pushdown in Mylan, the restructure of share capital and loan reductions in Hicks and the sale of shares and use of capital losses in Merchant.</p>
2:00 – 3:00pm	<p>Session 8: Income tax and trusts – Practitioner insights Panelists: Menike Bandara, Australian Taxation Office, Nicholas Bell, Australian Taxation Office, Sonia Mascolo, CTA, Bentleys</p> <p>Join our experts as they discuss the issues coming across their desk and the key income tax risk areas attracting scrutiny. The presenters will discuss the behaviours, structures and technical positions that are giving rise to review as seen in practice and provide delegates with guidance on how advisers and trustees can better manage risk and demonstrate defensible outcomes.</p>
